

MakePlace Guide

FOR BEGINNERS

STEP 01

Make sure you have the MakePlace plugin in game. ([Link Here](#))

STEP 02

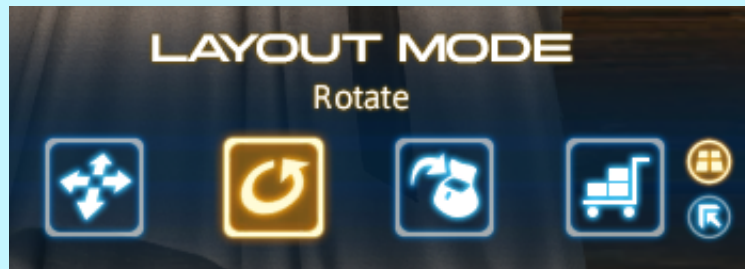

Buy all the items on your list. (I like to dye everything first, it's easier.)

STEP 03

Place all your items for your build inside your home or apartment.

STEP 04

Make sure you are set to ROTATION MODE.

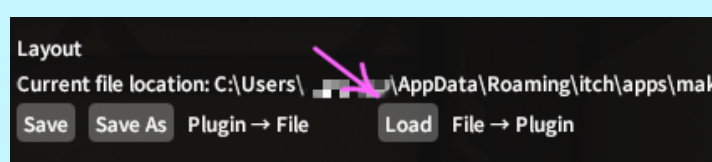

STEP 05

Type /makeplace in your chat to load plugin.

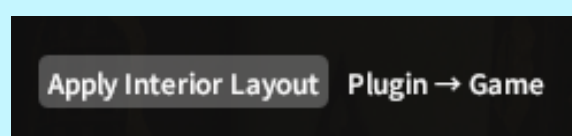

STEP 06

Click the LOAD button and find your .json file

STEP 07

Press the Apply Interior or Exterior Layout button.

STEP 08

Go down the list and press SET on any greyed out items.
